NewBridge GRADUATE INSTITUTE

SCHOOL OF COMMERCE

Bachelor of Commerce in Business Accounting

Build financial expertise. Support business decisions. Create commercial value.

Degree | 3 Years Full-Time | NQF Level 7 | 360 Credits | SAQA ID 118405

WHAT IS THIS PROGRAMME?

The Bachelor of Commerce in Business Accounting develops the financial, analytical and business skills needed to support organisational performance and decision-making.

You'll gain practical knowledge in accounting, auditing, taxation and financial management while building a strong understanding of how businesses operate and grow.

WHY CHOOSE THIS PROGRAMME?

1. Build in-demand accounting and financial management skills valued across industries.
2. Prepare for diverse career opportunities in accounting, finance, auditing and business.
3. Develop analytical and problem-solving skills that support better decision-making.
4. Gain commercial insight that helps organisations evaluate performance and create value.

GRADUATE WITH PROOF

Graduate with proof, not just a qualification, through NGI Accelerate, which enables you to build additional certifications and a stronger professional profile while you study.

BAC Accredited
Recognised for internationally benchmarked quality.

NewBridge Graduate Institute is proud to be accredited by the British Accreditation Council (BAC), an internationally recognised independent body that accredits institutions meeting rigorous global standards of academic and operational excellence. This accreditation confirms NGI's commitment to delivering quality education and fostering a supportive learning environment.

For students and parents, this means the assurance of studying at a trusted, globally recognised institution. BAC accreditation affirms NGI's commitment to international standards of quality, strengthening confidence in the education students receive and supporting pathways to further study and career success locally and internationally.

This also aligns with NGI's existing positioning of BAC as an international accreditation that provides additional assurance of ***quality, governance and academic standards.***
